

AV Commercial Technology Installation Specialist

SMART SPACES is an AV Technology integration company with experience in providing total room solutions. Our team is comprised of a talented staff of AV System Designers, Engineers, Project Managers/Estimators and AV Technology Installation Specialists.

We are currently looking for an AV Commercial Technology Installation Specialist to join our team! SMART SPACES' partnership with BSI allows us to introduce AV to our clients at an earlier phase in the design process to coordinate AV requirements before the construction begins, allowing projects to be designed around the technology in the space.

The Position Requirements and Responsibilities include:

- Read and analyze AV construction documents and scope of work
- Work with our AV System Designers in the install and commissioning of AV Technology
- Work with clients, vendors, suppliers, in the installation of AV Technology

The Qualified Candidate Must Have:

- 2+ years' experience working with AV Technology
- CTS-I Installation certification a plus, but not required, we can help you obtain your certification. SMART SPACES is committed to providing you the necessary training you need to perform your job.

If this sounds like the position for you, then we look forward to hearing from you!

Qualified candidates shall submit a cover letter and resume to:

Erin Macejkovic, Payroll and Benefits Coordinator for BSI & SMART SPACES at:
